Questions

Question number	Topic	Question type	Question wording	Answer given (truncated)	Actual score	Maximum score	Time taken																
1	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /PFI/Good Programming Practices	Multiple Choice	Which of the following pseudocode snippet employs standard layout technique?	IF order=NULL THEN ProductId = 9092 ProductName = "SmartPhone" productCategory = "Electronics" END IF	1	1	00:00:43	✓															
2	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /PFI/File Handling and Refactoring	Multiple Choice	Consider the following statements: Statement A: Refactoring improves code readability and modularity by improving code structure and design Statement B: Refactoring is mainly used to improve badly designed software. Which of the following options are correct with respect to above statements?	Both are true	1	1	00:00:23	✓															
3	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /PFI/Exception Handling	Multiple Choice	Which of the following are exception handling scenarios? 1) Validating data at all entry points 2) Message saying a file opened to be read does not exist 3) User thinks he has entered the correct password. However, the system says "invalid password"	2 and 3	1	1	00:00:36	✓															
4	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/HTML5	Multiple Choice	Consider the below control is a part of a HTML 5 page. <input type="file" name="photo" _____ /> Which of the following attribute should be used instead of blank line in the above statement to upload only image files?	accept="image/*"	1	1	00:02:07	✓															
5	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/CSS3	Multiple Choice	Given code: <HTML> <HEAD> <STYLE>P {font-weight : bold;}</STYLE> </HEAD> </HTML> Which of the following approach followed for defining the above mentioned CSS3 rules?	Embedded approach of CSS implementation	1	1	00:00:13	✓															
6	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/JavaScript/Working with Document Object	Multiple Choice	Consider there are two drop down boxes in an HTML form. Your requirement is that when a value from the first drop down box gets selected, the second drop down box should contain values depending on the value in the first drop down box. Which javascript event will you suggest for this scenario?	onChange	1	1	00:00:19	✓															
7	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/JavaScript/Forms	Multiple Choice	<body onload="fun1()"> <form name="myform" > <input type="text" name="myname" > <input type="submit" > </form> </body> We want to disable myname control of myform . What will be the right javascript code for it?	<script type="text/javascript"> function fun1() { document.myform.myname.disabled; } </script>	0	1	00:01:00	✗															
8	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/XML/Anatomy of XML Document	Multiple Choice	Which of the following are true about well formed XML document? a. It must have either DTD or Schema associated with it. b. It can have either DTD or Schema associated with it. c. Must have only one root element d. Can have multiple root elements e. Every opening tag must be closed f. Attribute values must be specified using either single quote or double quote g. Well formed XML are also valid XML documents	b,c,e,f,g	0	1	00:00:35	✗															
9	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /WebBasics/XML/XML Schema	Multiple Choice	Given: <x:element name="Category"> <x:simpleType> <x:restriction base="xs:string"> <x:enumeration value="DotNet"> <x:enumeration value="BI"> <x:enumeration value="RDBMS"> <x:enumeration value="J2EE"> </x:restriction> </x:simpleType> </x:element> Which of the following statement(s) is/are true about the above given XSD?	The acceptable values for Category are DotNet, BI, RDBMS and J2EE	1	1	00:00:59	✓															
10	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /Oracle/Aggregate Functions	Multiple Choice	Which of the following queries displays the Avg of all employee salaries for those employees who make commission, for each job, including only those sum greater than 1000?	SELECT job, AVG(sal) FROM emp WHERE comm IS NOT NULL GROUP BY job HAVING SUM (sal) > 1000;	1	1	00:01:33	✓															
11	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /Oracle/Joins and Subqueries	Multiple Choice	If following is the structure of Product table: <table><tr><th>Column</th><th>Null?</th><th>Datatype</th></tr><tr><td>p_id</td><td>Not null</td><td>Number(6)</td></tr><tr><td>p_name</td><td>Not null</td><td>Varchar2(25)</td></tr><tr><td>Description</td><td></td><td>Varchar2(40)</td></tr><tr><td>Price</td><td>Not null</td><td>Number(10,2)</td></tr></table> What will be the possible output of following command: CREATE TABLE obsolete_product AS SELECT * FROM Product WHERE 1=2;	Column	Null?	Datatype	p_id	Not null	Number(6)	p_name	Not null	Varchar2(25)	Description		Varchar2(40)	Price	Not null	Number(10,2)	It will create obsolete_product table with the same structure of Product table but the records are not copied.	1	1	00:00:46	✓
Column	Null?	Datatype																					
p_id	Not null	Number(6)																					
p_name	Not null	Varchar2(25)																					
Description		Varchar2(40)																					
Price	Not null	Number(10,2)																					
12	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /Oracle/DML	Multiple Choice	Janet wants to increase the Salary by 15% for all the employee's working in an organization. What should be the query?	UPDATE employee SET salary=salary*(salary*.15);	1	1	00:02:27	✓															
13	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /Oracle/Cursors	Multiple Choice	Which of the following statement is false for Cursor variable?	A Cursor Variable always refers to the "same query work area"	1	1	00:00:26	✓															
14	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /Oracle/Procedures	Multiple Choice	Consider the below Package specification and body: CREATE OR REPLACE PACKAGE Emp AS EMPCode NUMBER; PROCEDURE searchEmp(EMPCode NUMBER); END; CREATE OR REPLACE PACKAGE BODY Emp AS EMPName VARCHAR2(20); PROCEDURE searchEmp(EMPCode IN NUMBER) IS BEGIN DBMS_OUTPUT.PUT_LINE('Searching'); END; END;	Compilation error occurs while creating package body as the variable declared in the package specification is not used in the package body	0	1	00:01:46	✗															
15	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /OOPs & UML/OOP	Multiple Choice	_____ allows multiple implementations to be hidden behind a single interface.	Encapsulation	0	1	00:01:59	✗															
16	L1 Question Bank (2012-13)/L1 Common - Aug 2019/Module 1 /OOPs & UML/UML	Multiple Choice	Notations of a Sequence Diagram include:	Swim lanes	0	1	00:00:17	✗															
17	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Intro to Software Testing	Multiple Choice	Which of the following should not be part of test plan?	Costing	1	1	00:00:55	✓															
18	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Intro to Software Testing	Multiple Choice	Which of the following are the valid needs for testing?	All of the above	1	1	00:00:29	✓															
19	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Types of Testing Techniques and TC Design	Multiple Choice	The input variable is employees monthly salary ranging from Rs. 15,000 to Rs. 50,000. Which of the below is valid equivalence class?	(15000 <=salary <= 50000)	1	1	00:03:16	✓															
20	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Types of Testing Techniques and TC Design	Multiple Choice	Consider the following program: If a < b then statement 1 else if b >= c then statement 2 end McCabe's Cyclomatic Complexity is:	3	1	1	00:00:23	✓															
21	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Types of System Testing	Multiple Choice	Which of the following are common verification techniques used in project?	Code & Document Inspections, Walkthroughs, Reviews	1	1	00:00:37	✓															
22	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Types of System Testing	Multiple Choice	Consider the following scenario: You are testing an "Online Examination System" This application will be used by the university students to take the exam online. As per the client requirement the response time of the application should be 1 second after submitting the answer. Which type of testing that tester should perform to test the above given requirement?	Performance Testing	1	1	00:01:14	✓															
23	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 /Testing Concepts/Test Case Execution / Testing Metrics	Multiple Choice	What is the formula for finding defect density?	Total Defect density = (Total number of defects including both impact and non-impact, found in all the phases + Post delivery defects)/Size	1	1	00:00:49	✓															

24	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Intro to Requirements Engineering	Multiple Choice	Which among the options are best suited definitions for Requirement?	Requirement is a capability requested by a solution development company to solve a problem or to get something done.	0	1	00:00:54	✖
25	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Intro to Requirements Engineering	Multiple Choice	Match the following statements with appropriate words that best describes the statements: 1. Requirements 2. What stakeholders need 3. What designers have to build 4. They have done so correctly 5. Capable to cope with the changes A. Analyzing B. Validating C. Defining D. Evolution E. Verifying	1-A,2-C,3-B,4-E,5-D	0	1	00:01:23	✖
26	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements and Types of Requirements	Multiple Choice	Consider an example of a "Stock Exchange" company designing a "Trading system". What are the possible functional requirements that a system will include?	Determine the types of trading	1	1	00:00:45	✔
27	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements and Types of Requirements	Multiple Choice	Consider the following Scenario: A gaming software was developed by a group of Engineers. Their main focus was that this gaming software should reach any user irrespective of what operating system they have installed. This Scenario is a perfect example for what type of requirement?	Supportability Requirements	1	1	00:00:38	✔
28	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements Itemization	Multiple Choice	Complete the following statement: "Analyzing and prioritizing the complex requirements into simple requirements is called as : "	Requirements Itemization	1	1	00:00:13	✔
29	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements Itemization	Multiple Choice	Who participate in the Requirement Itemization process? 1. Business analyst 2. Test manager 3. Technical writer 4. Project Manager	1,2,4	1	1	00:03:05	✔
30	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements Gathering - Challenges and Techniques	Multiple Choice	Fill in the blank: "Organizing users and IT groups" comes under _____ type of required skills for requirement gathering.	Engaging with the Customer	1	1	00:00:28	✔
31	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirements Gathering - Challenges and Techniques	Multiple Response	Your company is responsible to build an application as per the client requirements. The requirements team accumulates all the requirements during requirements gathering phase of SDLC. Which of the following supporting activities the project team needs to carry out to ensure defect free requirements in SRST?	To verify the gathered requirements from the client is same. To summarize and present the requirements as understood by the requirement team to the user/stakeholder. Develop a requirement specification document which is to be reviewed and signed-off.	1	1	00:00:40	✔
32	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirement Management	Multiple Choice	State whether the following statement is TRUE or FALSE? "Requirement Traceability can be done at the end of the Requirements Development phase."	FALSE	0	1	00:02:58	✖
33	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 VRVD/Requirement Management	Multiple Choice	Match the following requirement metrics with their appropriate definitions: 1. Requirements Creep Index (RCI) 2. Requirements Stability Index (RSI) 3. Elicitation Efficiency (EEI) 4. Query Resolution Index (QRI) 5. Average Query Turnaround Time (QTAT) A. Time taken to resolve a functional query B. Total number of Queries Resolved / Total number of Queries C. A measure of the efficiency of elicitation process D. A measure of frequency of change in baselined requirements over project lifecycle E. A measure of scope creep over gathered requirements	1-E,2-D,3-C,4-B,1-A	1	1	00:06:17	✔
34	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 2 UACT/Intro to Use cases	Multiple Choice	State whether TRUE or FALSE: A 'Use Case' and a 'Use Case scenario' are the same?	TRUE	0	1	00:01:14	✖
35	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Functional Validation	Multiple Choice	Complete the following statements : Dependent and Independent validations are considered as this type of testing:	Field Level Validation	1	1	00:00:25	✔
36	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Functional Validation	Multiple Choice	Complete the following statement: To check if the components on the screen are laid out in a pre-defined order is a part of:	User Interface Validation	1	1	00:01:58	✔
37	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Functional Validation	Multiple Choice	Consider the following testing scenario: As one of the activity in Employee Onboarding process every newly hired employee is required to fill an Online Joining Form which would help the hired employee to fill all his/her relevant details which will eventually get stored in an Employee Database. The employee enters all required details and clicks on the Save button. On save, the system checks if duplicate email id is entered by the user. This type of testing should be a part of :	Form Level Validation	1	1	00:00:32	✔
38	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Functional Validation	Multiple Choice	User wants to book a meeting room using the online booking system. Booking details are as follows: Current Date : 30-Dec-2008 Date of booking : 31-Dec-2008 Time : From 10 p.m. to 2 a.m. What should be the post condition for the above scenario?	System will display error message "Can not book the room for next year"	0	1	00:01:20	✖
39	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Reports Validation	Multiple Choice	Which of the following elements can be considered while testing a Report?	All of the above	1	1	00:00:47	✔
40	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Reports Validation	Multiple Choice	Match the following Report testing validations with their correct description: A. Data Completeness B. Content Testing C. Report Presentation D. Data Aggregation 1. Testing whether the right data is printed on the report 2. To validate whether the report conveys the required details as per the report format specification 3. Testing whether the number of report fields are matching with expected number of fields as per the report specification 4. To run and test the report to ensure correct data calculations are displayed on the report	A-1, B-4, C-2, D-4	0	1	00:01:24	✖
41	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Import Export Validation	Multiple Choice	Saving an MS Excel file in ".csv" format and opening it with MS Access. This will be a part of _____.	Import-Export Testing	1	1	00:00:23	✔
42	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Import Export Validation	Multiple Choice	Consider the following testing scenario: Meena schedules an online meeting using Net Meeting. This sets a reminder in her outlook. The reminder pops up 15 minutes before the meeting. Validation of the above scenario is a part of _____.	Configuration testing	0	1	00:01:27	✖
43	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Help Validation	Multiple Choice	Match the following merits of Help System from their usability perspective: A. Absolute beginners B. Novices C. Experts i. To learn an application, encouragement to learn alternative methods of achieving a required result. ii. Requires brief reminders, information on the specific topic, to explore more on the topic iii. To learn an application, simple step-by-step instructions, many pictures, only one method of achieving a required result.	A-ii, B-i, C-ii	1	1	00:00:25	✔
44	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Help Validation	Multiple Response	Which of the following requirements would you test while testing Help System Layout?	The Help System interface window is divided into frames to facilitate the division of contents of the help system. The left frame should contain three tabs - Contents, Index and Search for easy navigation. The divider ruler between the left and right frames should be adjustable to provide easy and effective view of the help system.	1	1	00:00:34	✔
45	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Install Validation	Multiple Choice	Which of the following are advantages of Installer Testing?	Option A, B & D	1	1	00:00:28	✔
46	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3/Task Based Approach/Install Validation	Multiple Choice	The client installed two softwares on the system, database application & client application respectively. Because of licensing issue, the client had to remove the client application from his system. After this activity immediately the users of the database application reported that they are suddenly started facing problem while accessing database application. According to you, which of the following requirement was not tested by the test engineer while testing the installer software.	During uninstallation Error / Warning should be thrown for Shared DLL files.	1	1	00:01:10	✔
47	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3 /IDRCLCM/Defect Free Defect Reporting	Multiple Choice	Fill in the blank: The _____ & _____ indicates how important it is to fix the defect and when it should be fixed.	Severity & Priority	1	1	00:00:12	✔
48	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3 /IDRCLCM/Defect Free Defect Reporting	Multiple Choice	State whether TRUE or FALSE : One of the key points that every test engineers need to keep in mind while login the defect. i.e. "Precise" implies that "Saying it clearly ,But briefly".	TRUE	0	1	00:00:17	✖
49	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3 /IDRCLCM/Defect Free Defect Reporting	Multiple Choice	Which factors are analyzed by the Test Manager to decide whether the application is ready for release?	All of the above	1	1	00:00:17	✔
50	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3 /IDRCLCM/Defect Free Defect Reporting	Multiple Choice	With thorough testing it is possible to remove all defects from a program prior to delivery to the customer.	Disagree	1	1	00:00:19	✔
51	L1 Question Bank (2012-13)/L1 VNV - Sep 2019/Module 3 /Defect Tracking Tool - Bugzilla/A Defect Tracking and Reporting tool-Bugzilla	Multiple Choice	What are the two forms of search that bugzilla offers with respect to searching a bug that has been logged with the Bugzilla tool?	A Simple and a advanced search	1	1	00:00:53	✔
52	L1 Question Bank (2012-13)/L1	Multiple	Consider the following scenario:	Blocker	1	1	00:01:50	✔

VWV - Sep 2019Module 3

-Defect Tracking Tool -

BugzillaA Defect Tracking and Reporting tool Bugzilla

Choice

Samuel logs into his account of Bugzilla tool and wants to log a bug found in the product called USB 2.0 since the USB 2.0 is not getting recognized once plugged in. But samuel is confused as to what should be the severity level for this bug. So suggest what severity Samuel should select in the Bugzilla Tool to log the defect?

L1 Question Bank (2012-13)/L1 VWV - Sep 2019Module 4MS Excel 2010Working with Functions and Formulas

Multiple Choice

You are maintaining the student marks details as shown in the below image in an excel sheet. You need to display the grade for each student as per the table given in the excel sheet range starting from G2 to H7.

	A	B	C	D	E	F	G	H
1	Roll No	Name	Course	Marks	Grade		Marks Range	Grade
2	1	Jack	Course 1	50	A			D
3	2	Jane	Course 2	68	C+			60
4	3	Johnny	Course 3	62	C			65
5	4	Peter	Course 4	65	C+			70
6	5	Mark	Course 5	71	B			75
7	6	Robins	Course 6	89	A			80
8	7	Marie	Course 7	52	D			
9	8	Frank	Course 8	52	D			
10	9	Raymond	Course 9	76	B+			
11	10	Billy	Course 10	66	C+			
12								

Which of the following formulas would you use to get the output in the Grade column as shown in the above image?

=LOOKUP(D2,\$G\$2:\$H\$7,2,TRUE)
